Aevann Kingdom Magazine

Aevann Kingdom is a magazine created by myself, Aevann Billions. It is a collection of manga comics and stories created and written by me all in one place.

Battle King is a story of a young barbarian prince named Evan who possesses great potential and powers that he must learn to control

Allen Kirby is the story of a experienced spy assassin with extraordinary skills. The manga follows him as he completes many missions that save the world and shows how he devotes his life to a secret organization that adobted him as an orphan.

Battle Fighter 8 is a manga that is about an android who can think for himself who is built to serve humanity and fights the battles that humanity itself cannot fight

Manga King is the story of Art Inker, a starving artist, and amateur musician who somehow manages to get himself trapped in his own comic. The manga follows the story of him trying

life to a secret organization that adobted him as an orphan.
